P.O. Box 23
Thorold, Ontario L2V 3Y7

Dear Friends:

On behalf of Wellspring Niagara Cancer Support Foundation, I would like to thank you for your contribution towards our 2008/2009 Annual Support Campaign. Wellspring Niagara is deeply grateful for your support and your generous donation brings us closer to achieving our campaign goal of \$350,000. Please find enclosed an official receipt in the amount of \$2500.00.

Wellspring Niagara is a community-based support centre, offering support programs to cancer patients and their loved ones that meet the emotional, social, psychological and spiritual challenges of a cancer diagnosis. All programs are offered free of charge, in a warm and supportive atmosphere where the needs of patients and their loved ones come first. More than 1,250 registered members from across the Niagara Region have made use of our programs and over 140 trained volunteers offer their time and talents to help meet the needs of our growing membership. Our programs are offered in a safe, welcoming and non-institutional atmosphere at a centrally-based facility located at 3250 Schmon Parkway in Thorold. However demand and interest in our programs and services compel our expansion and since May 13, 2008, Wellspring Niagara has been offering satellite programs in Stevensville, Ontario.

As a not-for-profit charitable organization, Wellspring does not receive government or core funding and relies solely on the support from the community it serves. Your generosity will help us to continue to deliver programs that inform, support and empower cancer patients, their families and caregivers.

We thank you again for your generous support and ask that you tell your family, friends and anyone you know who may benefit from the services offered at Wellspring Niagara, free of charge.

Together, we can make a positive difference in the lives of those who are living with cancer.

Sincerely,

Kristen Szigatti

Office Administration Coordinator
